

To our patients:

We are implementing two very important elements of our electronic health record program, The <u>Patient Portal</u>, and access to the <u>Complete Prescription Medication History</u>.

The **Patient Portal** section of our electronic record will:

- 1. Provide you access to important elements of your medical record including:
  - Medical summaries
  - Lab results
  - Visit summaries

- 2. Facilitate secure email communications for non-urgent issues including:
  - Prescription refill requests
  - Referral requests
  - Appointment requests
  - <u>Non-urgent</u> messages to and from your care team

We will respond to these email communications within 2 business days.

PLEASE NOTE THAT URGENT MEDICAL ISSUES REQUIRING SAME DAY ATTENTION CONTINUE TO REQUIRE THAT YOU PHONE US. In addition, if you rarely check your email please do not enable the portal.

## 1. PATIENT PORTAL ACCESS REQUEST

I request that NSIM provide me with access to the secure Patient Portal so that I can view portions of my medical record, send, and receive non-urgent secure messages regarding my health records, laboratory tests, and appointments.
